Customer Reviews

Know these are EBooks! You will be charged shipping and handling for eBooks! The part that I didn't like was that the ebooks are not the same as the Kaplan Step 1 2016 lecture notes. The first two pictures are from the sellers Immunology and Microbiology Kaplan Step 1 Lecture Notes 2016 Ebook. The second two pictures are from Kaplan Step 1 2016 Lecture Notes for Immunology and Microbiology BOOK.

Without Kaplan lecture notes, I probably would have failed the majority of my classes. They are concise, organized, and easy to follow, especially if you have the video lectures. Specifically, the biochemistry, physiology, and Microbiology/Immunology books helped me through those respective courses. I found the pharmacology book to be slightly lacking, and used Becker's Pharmacology instead for that. Still, Kaplan is an excellent choice and you won't go wrong combining it with First Aid. If you have any of the previous versions (2014 and on), then you don't need to purchase these, as there haven't been many changes worth noting.

Still does not have updated content! SAME as the old version, with only a few edits here and there. First Aid has regular new info. Pharmacology: Still has not included 5th generation cephalosporins, which is in First Aid 2014!

No changes in content from the 2013 edition outside of a few lines of learning objectives per chapter which aren't even relevant to the high yield information. Even the spelling and grammar mistakes from the 2013 edition were carried over without being corrected.

There is no " CDs" ??!!And the quality of the paper isn't good.

I received the shipment 10 day's ahead of the expected arrival date, the publisher choose the price over quality, the quality of the paper isn't good. but from the money value perspective I am satisfied and I would recommend to seller

Great packaging and awesome books. Nice and new just as mentioned

The books are good, the only thing is that the paper is thin. There were also pages with little portions stuck together and excess or smeared ink on some pages.
