Customer Reviews

Very little content. No kind of flow to the book just random "facts" listed in no particular order. I was quite disappointed.

I read this manuscript and still wonder what it is suppose to teach to those who did not learn it in school. It talks about the Moors, as they related to the Jews and it talks about the 14th and 15th Amendments, which everyone in this day and time should have been taught in school. It speaks about the Moors occupying Spain for over 800 years, but doesn't speak to the fact that the Moors occupied Sicily, for just as many years. This is the worse thing I have ever read and wonder why .com is brokering it. It is not worth the effort of trying to send back for a refund.

One star is far too much for this shell of a product. This pamphlet was poorly compose, written, and void of any research or depth. To say that I was greatly disapointed is an understatement.

It was not what I was expecting. Seemed more like an essay, that gave brief highlights of

history. Very little depth in as the title captures your attention.

The book didn't really tell you much of the history of the Moores. Nor much that you don't already know. Was looking for something more in depth.

Is this text edited by children? There are so many grammatical mistakes it takes a lot away from the subject.

Did not tell me anything that I did not already know, but it was good reading.

A very good book...I want to know if there is more like this?
