Good start for honing in on a lesser area of understanding. If you feel you have achieved 11-12 grade LA this is good practice work. You will definitely know more when you finish the book or at least your weaknesses.

The exercise books for the Steck-Vaughn series are just plainly not worth it. They are slim books, and the questions do not correlate with the study books. I would suggest just finding a GED mentor to help you study before the big test.

Great study book! My son has been using it to get his GED. He says it is easy to read and has helped in his studies a lot.

Thank you so much. What I was looking for.

Very good and fast.

Used it and passed
