Did Not See That Coming: Hope For The Single Parent

Synopsis

Laurie's message to you... Even if you think your life is over, it isn't! "Where you are" means where you are now, and it can change. It doesn't have to be the end; it can be the starting point for something new. Look, it really is okay to struggle sometimes. It's also okay to allow other people to help. If you're having a hard time, that doesn't mean you have nothing to contribute! Even if you don't believe it yet, you do have something valuable and precious to offer. We can give out of our nothingness - out of our despair - out of our loneliness, even if it seems the whole world is against you...even if it seems God has forgotten you, there's hope for you, too. That dream you have? It can still come to you, although it may change form. You don't have to be able to see the whole way right now. There are baby steps you can take every day to bring that dream closer to reality. Bottom line - this is a message of hope and healing for single parents. If you're struggling and alone right now, there is hope for you. If your church or community doesn't understand, know that there is still a place for you somewhere. If you know someone who's scrambling to hold it all together, there are some real-world things you can do to help. Live what you love, Laurie Hardie

ASIN: B00KH3FCC6

Best Sellers Rank: #44 inÂ Books > Parenting & Relationships > Parenting > Single Parents #779 inÂ Books > Audible Audiobooks > Health, Mind & Body > Family & Relationships

Customer Reviews

In the past couple years, friends of mine have written six books. In that situation, I put a lot of weight on my shoulders. While itâ™s exciting that someone I know is having his work published, I feel pressured into reading and liking it. Luckily, I have really enjoyed each of those six books. I have another friend Iâ™ve only known for a short period of time. Less than two years. There should be no pressure to hurry up and read her book. And little pressure, if any, to like it. I havenâ™t known her long enough (or well enough) to feel as if Iâ™m in that position. Based on the title, this

wasn't something I thought I'd enjoy - the story of a single mother writing for other single mothers. In fact, aside from the word 'single', I can't relate to the 'mother' part at all. I'm not even a parent (though I always wanted to be a dad, but that's a whole 'nother story.) In an email to Laurie, I wrote, 'I'm looking forward to reading the book. I get the impression it's more of a book for women, moms, single moms, etc. So I'm probably not your demo.' I lied. I wasn't looking forward to it. I thought I offered a valid argument that would result in her telling me not to worry about reading it. Instead, she replied, 'The book is really about anyone who has had an 'I did not see that coming' moment they have had to recover from. I just had to pick a demographic so I chose single parents.' Darn! How was I going to wriggle out of it now? After stalling as long as possible, I decided to put the file onto my Kindle and get it over with. Suddenly, I was technically challenged and couldn't figure out what I was doing. I didn't want to admit to her that I was incapable of putting a file onto an electronic reader.
