The Current Status Of Endometriosis: Research And Management : Proceedings Of The 3rd World Congress On Endometriosis, Brussels, June 1992 (The Inte)

Synopsis

This volume provides a review of current knowledge about endometriosis. The book - which is the official proceedings of the 3rd World Congress on Endometriosis (held in Brussels in June 1992) - brings together many of the world's leading experts in the field. It describes, in detail, recent developments in the practical management of endometriosis, as well as advances in current research which are relevant to future clinical practice. Over 40 specialists from ten different countries together review in depth a wide range of topics, including the cellular basis of endometriosis, epidemiology, the peritoneal environment, the immune system, the safety factors involved in therapy and the evaluation of management procedures.
