Customer Reviews

A total disappointment of the author KIm Heldman. She has a web site were she claims project management but the general opinion is very very negative. People like me try to get better with education but the author found a niche in the market and is not helping so I just spend my last few dollars on a empty and poorly edited book. Also, , they make sure to give the best ratting, Four reviews at five starts? Come on!

Great book. Info easy to digest. Great review to take the exam. Like the format and sections of the book

Using this for my PMP prep and it's very good. Covers the new test content!

Very helpful with PMP Exam preparation

Great product.. fast shipper
