I love Federico Garcia Lorca so anything/everything of his I can get I try to get it. This book is in Spanish as well as English and does have some commentary--which can be a bit distracting if you really just want the richness of Lorca's poetry. Still, I like it, because it is a book I did not have--I try to buy works that would have been in circulation prior to his murder... this was nice--not great but a necessary addition to anyone serious about pre revolutionary Spanish poetry.
